with 7" widescreen TFT LCD colour display

7200 SERIES

Flush wall-mounting open-voice monitor
with 7" widescreen TFT LCD colour display

Expand the horizons

A field of vision which is wider than ever before. The limitations of conventional frames have been overcome at last, displaying a more panoramic view and revealing details that were previously out of shot. Revolutionary optics from every point of view.

7" 16:9
widescreen
LCD monitor

Set the imagination free!

Metallic and chrome finishes. A vast range of aesthetic solutions that offers plenty of scope for personalising the customer's chosen solution based on their own taste and creativity, to transform a technical device into an original furnishing accessory.

Metallic

- Type 72RD** 7200 cover in metallic red
- Type 72GD** 7200 cover in polished gold

Chrome-plated

Polished gold

Flush wall-mounting open-voice monitor with 7" widescreen TFT LCD colour display

- 7" high-resolution widescreen LCD monitor, for crystal-clear digital images.
- Wider field of vision due to the 16:9 aspect ratio, providing a clear view of visitors positioned at each side of the frame.
- The external appearance of the monitor can be personalised with a wide range of cover finishes and colours. Customers are sure to find the right solution whenever they decide to change the furniture or interior decor of the room.
- Highly functional keyboard with LED backlighting for easy operation even in poor lighting conditions.
- Brightness adjustment, ringtone volume and a choice of 7 different melodies.
- Equipped with dedicated push-buttons for self-start, stair light, door lock release and reply functions.
- Open voice system with "hands-free" function (no need to keep the reply button pressed during the call).
- Possibility of operating up to four auxiliary functions in the Two-Wire and Digibus versions,
- or intercommunicating calls in the Two-Wire version, using the buttons labelled 1-2-3-4.
- Green LED "door open" signal.
- Privacy function which disables the ringtone. In the Two-Wire and Digibus versions, when the ringtone is disabled a red LED will indicate up to 5 unanswered calls by emitting a series of flashes.
- Installation requires the flush-mounted back box type 7249, made of ABS plastic. It is supplied with a cover to prevent the ingress of mortar and grout during masonry work. The dimensions of the hole for flush wall-mounting are 189x160x52 mm.
- **For greater widescreen image clarity, we recommend the use of the following electronic devices for the speech units: 559B/7, 12F5/7, 12F7/7, 1285 and 1286 with aspheric lens.**

White technopolymer cover supplied as standard.

Choose the technology

- Type 7200** 7" white Sound System monitor
- Type 7211** 7" white Two-Wire intercommunicating monitor
- Type 7214** 7" white Digibus Monitor
